

How will a psychometric assessment assist me/my child?

At Bee Psyched, we pride ourselves on our thorough psychometric assessments and comprehensive written reports.

Our written assessment reports provide:

- An explanation of your/child's cognitive strengths and weaknesses (**Tier 1**) and applicability to educational settings;
- The degree to which your/child's academic achievement is consistent with assessed cognitive ability, including associated diagnosis (if relevant – **Tier 2**);
- Assessment of ADHD, memory, and other cognitive abilities that may impact on academic achievement for a comprehensive understanding of learning needs (**Tier 3**); and
- Practical recommendations for parents and schools, tailor-made for your child based on their results.

A comprehensive assessment is invaluable to ensure your child's academic learning is adequately supported throughout their life. So, if you believe your child is academically struggling or the school is unsure how to best support your child's learning, please contact us to discuss your child's needs.
